MarSurf M 400. The best of the "mobiles"

High performance with high mobility

Evaluation Unit MarSurf M 400

Easy. Fast. Innovative

Not only needed in the measuring room but also more and more often in the production area: Surface evaluation that requires free tracing.

This generally means higher demands of the operator qualification, more time, more adjustments.

MarSurf M 400 offers this required performance scope in its line of mobile surface metrology - with easy and fast operation.
